About me

Highly skilled and motivated Full Stack Developer with expertise in HTML5, CSS3, JavaScript, React, PHP, and MySQL. Seeking challenging positions to leverage my knowledge and experience in developing responsive web applications and creating desktop applications with C# Windows Forms Application .NET.

Professional Experience

- **Freelance Full Stack Developer**
- Collaborated directly with clients to understand their business requirements and design custom solutions.
- Utilized HTML5, CSS3, JavaScript, React, PHP, and MySQL to develop responsive web applications that met client specifications.
- Implemented best practices for code optimization, ensuring efficient performance and scalability.
- Conducted thorough testing and debugging to identify and resolve software defects.
- Delivered projects within established timelines, effectively managing multiple assignments simultaneously.
- Provided ongoing maintenance and support for web applications, ensuring seamless operation and addressing client needs promptly.
